CORK PROGRAM

Hippocampus-Verlag Mai 2013, 2013. Taschenbuch. Book Condition: Neu. 198x146x5 mm. Neuware - Functional hand disorders are counted among the most common consequences of acquired brain damage. In everyday life, impairments of fine motor skills mainly occur during activities such as gripping, manipulating and transporting objects. This exercise program allows an intensive, home-based training of the patient's affected hand in order to improve hand function. The exercises presented in this book activate all important structures of the hand; elbow and shoulder...

Reviews

This composed pdf is excellent. We have go through and that i am certain that i am going to likely to read again once more down the road. I am just happy to explain how this is basically the very best publication i have go through within my own daily life and can be he best publication for actually.

-- **Anika Kertzmann**

The best book i actually go through. It can be full of wisdom and knowledge Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Prof. Greg Herzog**

This publication is amazing. This can be for all who statte that there had not been a worth reading through. I realized this publication from my i and dad encouraged this ebook to find out.
