

Non-Probabilistic Measures and Their Applications to Coding Theory

By P. K. Sharma

VDM Verlag Jan 2011, 2011. Taschenbuch. Book Condition: Neu. 220x150x5 mm. This item is printed on demand - Print on Demand Neuware - The present book highlights developments of new measures of fuzzy information and finds their applications for the study of maximum entropy principle and the development of new codeword lengths. The main objective of the book is to provide the knowledge of non-probabilistic measures and will be helpful in disseminating knowledge to the benefit of Information Theoreticians, Statisticians, Computer Scientists and Operational Researchers. The book presents new findings which will add to the knowledge of the scientific community for their future research. 84 pp. English.

Reviews

A brand new e book with a brand new standpoint. I have read through and that i am certain that i am going to gonna go through again once more in the future. Its been developed in an remarkably simple way in fact it is merely right after i finished reading through this book in which basically modified me, modify the way in my opinion.

-- Prof. Llewellyn Thiel

I actually started reading this article ebook. I have got read and so i am certain that i will going to study once more yet again in the future. I am just very happy to inform you that this is the finest publication we have read in my personal lifestyle and may be he finest ebook for ever.

-- Mrs. Clotilde Hansen II
