

Hereditary Genius: An Inquiry Into Its Laws and Consequences (Paperback)

Filesize: 7.95 MB

Reviews

It becomes an amazing pdf that I actually have ever go through. This is for those who statte that there had not been a worth reading through. You will like how the author create this pdf.
(Prof. Lonie Roob)

HEREDITARY GENIUS: AN INQUIRY INTO ITS LAWS AND CONSEQUENCES (PAPERBACK)

COSIMO CLASSICS, United States, 2005. Paperback. Book Condition: New. 198 x 127 mm. Language: English Brand New Book ***** Print on Demand *****.I have no patience with the hypothesis occasionally expressed, and often implied, especially in tales written to teach children to be good, that babies are born pretty much alike, and that the sole agencies in creating differences between boy and boy, and man and man, are steady application and moral effort. It is in the most unqualified manner that I object to pretensions of natural equality. The experiences of the nursery, the school, the University, and of professional careers, are a chain of proofs to the contrary. -from Classification of Men According to Their Natural Gifts One of the greatest names in Victorian science, Francis Galton has been all but forgotten in the popular culture, but his work on philosophy of genetics and the inheritability of human characteristics broke new ground in the late 19th century. With this 1869 book (along with his 1889 work Natural Inheritance), he founded an entirely new scientific discipline, one that approached human biology with a systematic rigor as he explored the degree of eminence among British men and determined that intelligence and accomplishment were inheritable. Though some of Galton's work has been dismissed because of its causal connection to the deplorable applications of eugenics programs in the 20th century, this remains an important work in the history of biological science. I do not think I ever in all my life read anything more interesting and original Charles Darwin said about this extraordinary book. Among his many significant accomplishments, British scientist SIR FRANCIS GALTON (1822-1911) was an explorer, a geographer, a statistician, and inventor of fingerprint identification. In addition to more than 300 scientific papers, he wrote the books Narrative of an...
