Brand New Book ***** Print on Demand *****.Excerpt from The Problems of Hygiene in Man s Dwellings The Principal reason for writing this book was the demand for a text book by a great number of pupils who were following my lectures on Hygienic principles in planning of dwellings and elementary instruction in planning of private dwellings, institutional dwellings and hospitals. There being no such work in existence I commenced this book with the intention that it could be used by students as a text book or guide in the study of economical, practical and sanitary planning of various types of dwellings without the necessity of following this study along the lines of a strictly architectural course. In the preparation of data I discovered that the influence of hygienic principles in construction and planning of dwellings is much more extensive than generally realized; also, that the field of this study, the scope, is not limited to the single dwelling but must be considered as much more important in connection with combinations of dwellings, namely - villages, towns and cities. Even the most superficial study of methods of planning, decisions on location. Government or management of communities will show that with only few exceptions a great number of serious mistakes are made. These mistakes are sometimes, due to neglect or to ignorance of already well established facts. A great number of the mistakes, however, can be attributed to the deficiency in the general study of the many features of which the hygiene of the dwelling, taking it in a broad sense, is composed. For the study of this science in schools there is as yet no opportunity. There is as yet no course in Colleges...
