INTERSTELLAR MAGNETIC FIELDS

Book Condition: New. Publisher/Verlag: Springer, Berlin | Observation and Theory Proceedings of a Workshop, Held at Schloß Ringberg, Tegernsee, September 8-12, 1986 | Proceedings of a Workshop, Held at Schloß Ringberg, September 8-12, 1986 | The subject of interstellar magnetic fields is of increasing interest to both observational and theoretical astronomers. Consequently, it was opportune for both groups to convene and discuss the current state of research and future prospects. For this purpose, the Max-Planck-Gesellschaft zur Förderung der Wissenschaften e.V. generously provided its unique conference centre Schloß Ringberg. The scientific organising committee consisted of Profs. W. Hillebrandt (Max-Planck-Institut für Physik und Astrophysik, München) and R. Wielebinski (Max-Planck-Institut für Radioastronomie, Bonn). The local organising committee comprised Gabriele Breuer (conference secretary) and the Editors. These proceedings summarise the lectures and short contributions presented at the workshop. Although extremely productive, the discussions could not, unfortunately, be included. We thank the staff of the castle, and especially its administrator, Mr. Hormann, for providing the excellent environment conducive to smooth running of the conference. We acknowledge the Max-Planck-Gesellschaft for its support in financing the workshop. Thanks are also due to all participants for their enthusiasm and (generally!) prompt submission of manuscripts. Last but not least, we thank Gabriele Breuer for her invaluable help before, during and after the days at Schloß Ringberg. She skillfully typed and retyped many of the manuscripts for these proceedings and unstintingly performed last minute corrections. We hope that some of the ideas presented here will stimulate further discussion and research in this area. R. Beck Bonn, December 1986 R.
